## Retail Industry

In the retail industry, “the customer is always right” is a business philosophy that hasn’t changed.

What has changed, however, is the customer.

In today’s world, a customer is only limited by the amount of time they can spend online—and that time is precious. As a retailer, you can gain a loyal customer or lose them forever depending on the customer experience you provide. Your customers want to engage across a variety of channels and touchpoints. They expect a consistent and seamless experience regardless of their location or channel. The “Amazon effect” has disrupted the industry, and smaller businesses are clamoring to sell on the platform. How does your business fit in? And once you overcome those hurdles, how do you manage, scale and sustain your success?

### Key Benefits

- Optimized customer experience
- Faster time to value
- Stronger data
- Improved efficiency
- Improved visibility
- Improved planning
- Improved inventory management
- Higher user adoption
- Greater competitive advantage

ABSOLUTE  
VISION  
TECHNOLOGIES

Multiple systems can lead to a wave of transactions and data—especially when you consider the sheer number of SKUs that retailers manage, multiplied by location, impacting both internal and external operations. Exceptional service requires the integration of ERP, POS and ecommerce, and a better understanding of how to track your customers and competitors through analytics.

Are you ready?

NetSuite Services is.

NetSuite Services offers companies in the retail industry support for the full lifecycle of your business—from the initial NetSuite implementation with our exclusive SuiteSuccess methodology—to our online training services with Learning Cloud Support—to continuous managed services with Advanced Customer Support. We help you seamlessly transition to the cloud, allowing your business to focus on delivering exceptional experiences for your customers. Whether you are adopting omnichannel capabilities, selling direct to your consumer or navigating your way through the “Amazon Effect”, we are here to help you every step along the way.

We have a deep appreciation of the challenges retailers face and understand the leading practices required to help your business operate at peak efficiency. We leverage SuiteSuccess to ensure a solution built and vetted for retail companies. The results are industry-leading omnichannel capabilities, improved business visibility, unified data, optimized location management, improved planning and inventory management, and greater user adoption.

- **Reporting and Analytics.** Knowing your customer well through analytics is critical for retail companies. These are core capabilities of NetSuite enabled by NetSuite Services.
- **Reduced Risk, Speed to Market and Lower Cost.** We understand that retail companies cannot take people away from their day jobs for too long—you have a business to run. We understand that you want fast and you want quality, experience and expertise. Our SuiteSuccess methodology enables a faster time to market through integrated leading practices and your risk of implementation fatigue is highly mitigated.
- **High User Adoption.** Our education, training and testing teams ensure a successfully implemented solution that has a high adoption rate. NetSuite Adoption Services helps companies address the challenges of gaining stakeholder and end user consensus and buy-in, and achieving sustained adoption, long-term productivity and ownership of the new system. The outcome creates individuals and teams that are enthusiastic drivers for the change that are ready to harness the capability of NetSuite at go-live and sustain that productivity over time. We also offer product training for project teams, and user enablement through both end user training and our train-the-trainer program.
- **Minimal Time Investment.** NetSuite is your partner on the implementation—we perform most of the heavy lifting. Typically, a customer provides a few hours a week for two to four months and then they are on the “omnichannel retail” platform.
- **Improved Business Visibility and Actionable Insights.** Our offerings and services enable actionable insights that inform how your business is performing so you can respond to market pressures with real-time views of tailored KPIs that enable you to manage by exception.
- **Global Reach.** NetSuite Services enables retail companies to scale rapidly through international expansion. Through our acquisition by Oracle, we have even further strengthened our global footprint and reach with offices around the world.
- **Full Lifecycle Services.** We offer retail companies full lifecycle services from the initial implementation with our SuiteSuccess methodology through training and continuous support with our Advanced Customer Support managed services. We address the retail industry challenges of delivering an exceptional customer experience, adopting omnichannel capabilities and best practices, selling direct to consumer, the impact of the “Amazon Effect” and a very competitive marketplace. We also help operationally with data cleansing and migration, merchandise planning and inventory management, location management, integration with third-party software solutions, and user adoption and training for all your locations.
- **Post Implementation Managed Services.** We offer a true long-term partnership model with NetSuite Advanced Customer Support.
